---

### Python developer

Enthusiastic B.tech graduate with a strong foundation in Python programming and web development. Eager to join an organization to apply my skills in developing efficient, scalable, and user-friendly applications. Proficient in Django, Flask, and front-end technologies such as HTML, CSS, and JavaScript. Passionate about problem-solving and continuous learning in a collaborative environment. Looking to contribute to innovative projects and grow as a professional Python Developer.

---

### Key Competencies

- Python Programming: Proficiency in writing clean, efficient, and maintainable code.
  - Front-end Technologies: Knowledge of HTML, CSS, JavaScript, and frameworks like React or Angular.
  - Database Management: Familiarity with SQL and NoSQL databases such as PostgreSQL, MySQL, and MongoDB.
  - Problem-Solving: Ability to identify issues and develop efficient solutions.
  - Collaboration: Effective teamwork and communication skills for working in a collaborative environment.
- 

### Internship

#### Voidmain technologies

Nov 2023 - May 2024

- Worked as python full stack for 6 months in voidmain technologies.
  - Developed and maintained web applications using Python, Django, JavaScript, and Angular.
  - Participated in code reviews and debugging sessions to ensure high-quality code.
  - Participated in daily stand-up meetings and sprint planning sessions, adhering to Agile methodologies
- 

### Projects

#### Rock, Paper, Scissors Game (Python)

- Technologies used: Python (Core Programming)
- Developed an interactive Rock, Paper, Scissors game using Python, allowing users to play against the computer with randomized choices and win/loss logic.
- User selects from Rock, Paper, or Scissors.
- Computer randomly selects a choice.
- Implements game logic to determine the winner.
- Handles invalid inputs to prevent crashes.

## Login page

- Technologies used: HTML and CSS.
  - Designed and implemented a secure and intuitive login page with robust authentication mechanisms.
  - Employed modern frontend technologies to create a responsive and user-friendly interface.
  - Ensured data privacy and protection through encryption and secure authentication protocols.
  - Email Verification: Sent verification emails to users to confirm their email addresses during registration.
  - Password Recovery: Included functionality for users to reset their passwords via email.
- 

## work experience

- worked as a python full stack trainer for Jetking from Aug 2024 to Oct 2025
-
